

Economic Growth Region 7

Statistical Data Report for April 2014, Released May 2014

Regional and State Unemployment (seasonally adjusted)

Regional and state unemployment rates were generally lower in April. Forty-three states had unemployment rate decreases, two states had increases, and five states and the District of Columbia had no change, the U.S. Bureau of Labor Statistics reported. Forty-seven states and the District of Columbia had unemployment rate decreases from a year earlier, one state had an increase, and two states had no change. The national jobless rate fell to 6.3 percent from March and was 1.2 percentage points lower than in April 2013.

Rhode Island had the highest unemployment rate among the states in April, 8.3 percent. North Dakota again had the lowest jobless rate, 2.6 percent. In total, 19 states had unemployment rates significantly lower than the U.S. figure of 6.3 percent, seven states and the District of Columbia had measurably higher rates, and 24 states had rates that were not appreciably different from that of the nation.

Boosting Innovation in Job Training Strategies

(Excerpted from the DOL News Brief - 5/14/2014)

WASHINGTON — The U.S. Department of Labor announced the availability of up to \$53 million in grants through the Workforce Innovation Fund, an initiative designed to strengthen public job training programs by: delivering employment and training services more efficiently and effectively, facilitating greater cooperation across workforce programs and funding streams, scaling best practices, and implementing rigorous evaluation techniques. Workforce Innovation Fund grants will invest in both the scaling of proven ideas and the development of promising ideas that are being implemented for the first time.

"Developing more efficient and effective job training solutions is crucial to building the pipeline of skilled workers needed to compete in the global economy," said U.S. Secretary of Labor Thomas E. Perez. "Workforce Innovation Fund grants encourage innovation to help programs fund what works and fix what doesn't."

This is the second round of grants available under the Workforce Innovation Fund. Approximately \$171 million in grants were awarded in the first round, which included \$147 million for 26 grants in July 2012 and \$24 million for two Pay for Success grants in October 2013.

"We at the Department of Commerce are thrilled to be working with the Department of Labor to break down the silos between the private sector, the workforce system, training organizations, academic institutions and government to create a collaborative ecosystem that supports the needs of our workers and our businesses," said U.S. Secretary of Commerce Penny Pritzker. "We know that workforce training works best when we have businesses at the table to define precisely what they are looking for as they hire employees and to help design the programs to address those needs."

The goals of the Workforce Innovation Fund are closely aligned with the administration's job-driven training principles. Many grantees funded in the first round are working with local and regional employers, industry groups, and their state commerce and development agencies to strengthen public-private partnerships. This second round of funding will help catalyze and expand similar efforts.

To read about how the Workforce Innovation Fund and other federally-funded job training programs that are making a difference in your community and to find resources that can help connect jobseekers and employers, visit <http://www.dol.gov/findyourpath/> and contribute to the conversation on Twitter using #FindYourPath.
